

Tools For Self Reliance (TFSR)

Peter Hughes (01934 852701) and Peter Wright (01934 832952) residents of Congresbury are involved in running a local branch of TFSR.

This charity seeks to help people in Africa be self reliant by setting up their own artisan businesses.

Donated tools are refurbished at the workshop in Weston-s-Mare; this equipment is made up into various kits, sent to Africa where business training and development of skills is provided.

We also give informative and entertaining talks on the work of the local and national charity. The talks include a short video, power point presentations and personal experiences.
