Painstakingly researched with 112 pages, 60,000 words and 250 images “175 Years of Village Cricket” draws on the archives held by both the cricket club and the history group as well as recounting the memories of villagers and players, past and present.

Along with the story of Congresbury CC over the generations, we open a window into the development of cricket in North Somerset from the middle of the 19th century.

Many thanks to Enable Promotion Marketing for sponsoring the book and to Hawker & Palmer Wealth Management for sponsoring the book launch.
