Get Your Free Omicron PCR today to avoid restrictions

NHS scientists have warned that the new Covid variant Omicron spreads rapidly, can be transmitted between fully vaccinated people, and makes jabs less effective. However, as the new covid variant (Omicron) has quickly become apparent, we have had to make new test kits as the new variant appears dormant in the original test kits.

What happen if you decline a COVID-19 Omicron test?

In this situation, we warned that testing is in the best interests of themselves, friends, and family. People who do not consent or cannot agree to a COVID-19 test and refuse to undergo a swab must be isolated.

How to request a Free Omicron PCR test?

You can order your Omicron pcr test via NHS portal by clicking the link below:

nhs-order-pcr/COVID-10-omicron-research/

What happen if you are positive?

If positive, they must isolate for 10 days and should be reported to Public Health England.
