CLIMATE ACTION
NORTH SOMERSET

Renewable Energy in Congresbury and Puxton

Share your views

Public workshop, Hewish and Puxton Village Hall
Sunday 23 January , 9:30am-4:30pm

North Somerset Council is committed to becoming **carbon neutral by 2030** and would like to increase local renewable energy generation, but we want your input into future planning policies.

Could **your community** create more of its energy from **renewable sources**?

What types of **renewable energy** might be **acceptable** in your area and where?

How could **energy saving** contribute?

Everyone welcome. **No prior knowledge** needed.
